## EMERGENCY MANAGEMENT

<b>FIRST AID:</b>	<b>Swallowed:</b> If swallowed do NOT induce vomiting. For advice, contact the National Poisons Centre on 0800 POISON (0800 764766) or a doctor immediately. Begin artificial respiration if the victim is not breathing. Use mouth-to-nose rather than mouth-to-mouth.
	<b>Eyes:</b> If splashed in eyes, wash out immediately with water.
	<b>Skin:</b> If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.
	<b>Inhaled:</b> If inhaled move the victim to fresh air immediately. Begin artificial respiration if breathing has stopped.
<b>FIRE:</b>	SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use alcohol foam, water spray or fog. Cool containing vessels with water jet in order to prevent pressure build-up, autoignition or explosion. Fire fighters should wear positive pressure self-contained breathing apparatus (SCBA) and full turnout gear.
<b>SPILLAGE:</b>	In case of accidental spillage damp down with sawdust or other absorptive material then sweep up and bury in a safe landfill. Wear protective clothing. Use absorbent material to prevent the spread of the spillage. Block drains if possible. Sweep up contaminated material and place in drums for disposal in a manner acceptable to the appropriate authorities. For major spills, the Fire Service should be informed immediately, followed by local Health Protection Officers.
<b>DISPOSAL:</b>	Triple rinse empty container and add rinsate to spray tank. Burn in an appropriate incinerator, if circumstances such as wind direction permit. Otherwise crush and bury in a suitable landfill. Avoid contamination of any water supply with product or empty container.

**IN CASES OF MEDICAL EMERGENCY CONTACT:**  
NATIONAL POISONS CENTRE – PH: 0800 764 766
