General Information:	May be harmful if swallowed. May cause skin irritation&sensitization from prolonged contact. May cause eye irritation. May be harmful&cause respiratory irritation. Toxic to aquatic organisms.	
Skin contact:	Immediately flush body and clothes with large amounts of water. Remove contaminated clothing and footwear. Gently wash affected areas with soap and water. If a large area is affected or if irritation persists seek medical assistance.	

Eye contact:	Flush eyes immediately and continue for at least 15 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. Seek medical attention if irritation persists.
Ingestion:	Do NOT induce vomiting if swallowed. Wash mouth with water and seek medical attention immediately. For advice, contact the National Poisons Centre on 0800 POISON (0800 764766).
Inhalation:	Should irritation occur, remove patient to fresh air. If breathing is shallow or has stopped, ensure airway is clear and apply resuscitation. Seek medical assistance if irritation doesn't disappear soon.
Further Information:	Treatment: No known specific antidote. Treat symptomatically (decontamination, vital functions). Stomach lavage or saline laxative may be considered.

### 5) Fire-Fighting Measures:

Specific hazards:	Toxic fumes that may be released during fire: Carbon oxides, hydrogen chloride and - fluoride may be released during fire.
Extinguishing media and methods:	Make use of water, foam, dry chemical, or carbon dioxide to extinguish fires.
Recommended protective clothing:	Wear SCBA and appropriate chemical-protective clothing.

### 6) Accidental Release Measures:

Personal precautions:	Use protective clothing and equipment. Avoid contact with skin and eyes.
Environmental precautions:	Cover or dyke spill and prevent spreading. Do not discharge into drains/surface waters/groundwater or into subsoil/soil.
Spill procedures:	Absorb spills with inert material, vacuum, shovel or pump spilled material and place in waste containers. Prevent material from entering waterways. Wash area with water and absorb with further inert material.
Disposal procedures:	Dispose of waste safely in appropriate containers, according to local Council regulations.

Eye protection:	Wear safety goggles with side-shields or full face shield.
Hand protection:	Wear suitable chemical resistant safety gloves (e.g. nitrile rubber (.4mm)).
Other protective equipment:	Body protection (chemical protection suit, boots) must be chosen depending on activity and possible exposure.
